

PRESS RELEASE

Sydney, 01 October 2004.

Exclusive Logistics Solutions is delighted to announce the appointment of Mr Andrew Milne as National Operations Manager of Exclusive Logistics Solutions in Australia with immediate effect.

Andrew has deep customs broking and quarantine knowledge and experience, and has been a licensed customs broker for some 15 years. He has certificates in Training and Workplace Assessment and Australian and International Trade Facilitation. He also lectures for the International Trade and Customs / Freight Forwarding course at the NSW Department of Technical and Further Education.

As part of Andrew's ongoing quest for knowledge and development in the logistics industry, he needed a platform for creativity and an opportunity to design solutions for customers without being hampered by corporate systems, rules and pre-prepared service offerings. "Exclusive Logistics Solutions is the perfect place for me to explore opportunities for and with customers. Each customer presents a new sketch board as our ethos is to provide solutions for each customer exclusively," said Milne. "I can't wait to get started!"

Andrew will be based in Sydney, but will assume overall responsibility for Perth, Melbourne, Brisbane and Adelaide as well.
